We practice traditional viticulture with environmentally-friendly methods, doing everything we can to help the grapes express the real character and identity of our land.

#### **Harvest & vinification process:**

Hand picking harvest in plastic crates of 10 kg, carrying out a first sorting in the vineyard and a second berry by berry in the cellar. Cold soak (4°C) and alcoholic fermentation at controlled temperature over 26-28°C. We combine the processing

techniques punching down (pigeage) and pump over to extract the great personality of their grapes. Long maceration and pressing at very low pressure. #### **Tasting notes**

*Dark cherry color.*

*Aromatic complexity of licorice, violets, cocoa, balsamic, spices and black fruit, all enveloped by soft smoky notes from the ageing process and also from the fire of 22nd July 2012.*

*On the palate concentration of the aromas, elegance, silky and unctuous tannins, with a great acidity that gives freshness and long finish.*
