"Carignan on sand soil"

Grape Varieties: 100% Carignan.

Soils & Vines:

The wine comes from old Carignan bush vines from the selected plot "Hort d'en Joan" planted in 1909 on sandy soil located at the village Capmany (Alt-Empordà), with an altitude over 90m above the sea level and oriented to the north.

Viticulture:

We practice an ecological viticulture under the principles of biodynamics, through a rigorous manual work in the vineyard and focusing our efforts on recovering the autochthonous varieties.

Harvest & vinification process:

Hand picking harvest in plastic crates of 10 kg, carrying out a first sorting in the vineyard and a second berry by berry in the cellar. Cold soak (4°C) and alcoholic

fermentation at controlled temperature over 26-28°C. We combine the processing techniques punching down (pigeage) and pump over to extract the great personality of their grapes. Long maceration and pressing at very low pressure. Aged for 16 months in French oak barrels, stirring the lees (bâtonnage) and malolactic fermentation in them that will qualify harmonically its aromatic expression.

Bottled without fining or filtering.

Alcohol content: 15,00 %vol.

PH: 3,6

Total acidity: 6,20 g/l (a.t.t)

Residual sugar: 0,4 g/l

Bottled: 04/07/2017

Limited Production:

500 bottles (750 ml)

50 magnums (1500 ml)

Tasting notes

Garnet colour.

Complex fragrance: red fruits jam, cherry liquor, balsamic with a lot of mentholated notes.

On the palate, we perceive intensity, acidity and structure but with silky texture and tannins, ending with a long and fresh finish.
